Report

Date: 4 April 2016  Security Level: IN CONFIDENCE

To: Hon Bill English, Minister of Finance
    Hon Anne Tolley, Minister for Social Development
    Hon Jo Goodhew, Associate Minister for Social Development

Community Investment Strategy: Further detail on contracting changes from 1 July 2016

Purpose of the report

1 This report provides further detail on changes to contract management and contract redesign that will be made from 1 July 2016 as a result of work being completed under the Community Investment Strategy.

Recommended actions

It is recommended that you:

1 note you have asked for further detail on contract changes that will be made from 1 July 2016 specifically in relation to Results Measurement Framework, Client Level Data and contracting arrangements Yes / No

2 note that we have adopted the Ministry of Business Innovation and Employment’s Streamlined Contracting Framework for our new contracts Yes / No

3 note that we have used the contract template to focus on the customer and the outcomes being pursued with them, working collaboratively with providers Yes / No

4 note we have attached a contract template, filled in for Social Workers in Schools, that shows the changes relating to Result Measures and Client Level Data Yes / No
agree to forward this report to other Ministers with a portfolio responsibility for the Community Investment Strategy (Ministers Kaye and Barry)

Hon Jo Goodhew
Associate Minister for Social Development

Date
Background

2 The Minister of Finance has requested detail regarding contractual inclusion of the Results Management Framework (RMF), client level data requirements and changes to contracting arrangements.

We are continuing to move all our contracts onto the Ministry of Business Innovation and Employment (MBIE) Streamlined Contracting Framework

3 We have worked extensively with MBIE to support the development of the Contracting Framework. A key focus of the framework is on improving relationship management between government and its providers.

4 Over 80% of the Ministry’s contracts are now on the Contracting Framework.

5 There are a range of different ways provisions can be included within the MBIE framework; we have provided an example of this with a mock contract using Framework components. The contract includes:
   - MBIE Framework Terms and Conditions; we have attached the existing terms and conditions which are currently under review by MBIE (Appendix One)
   - Outcome Agreement; this is where the Ministry can include any Ministry specific ‘Special Clauses’ (Appendix Two)
   - Service Specification document which is relative to an individual service / programme (Appendix Three)

6 We have populated the contract template using Social Workers in Schools as an example, including new results measures and client level data requirements.

The contract documentation provides a way of connecting the customer’s experience with what the service is intended to achieve and how well the provider delivered the service

7 The new contract documentation reflects a strong focus on the outcomes being pursued for customers through the SWIS service:
   - It explains the outcomes that we expect the service will contribute towards, acknowledging that there are other factors that affect those outcomes (in the Outcome Agreement – Appendix One)
   - It outlines how the service is expected to operate to give the customer (and his or her family) the best chance of making positive changes in their life (Service Specification – Section 4 Service Delivery)
   - It specifies the performance measures that the provider and the Ministry will use to understand how the provider has worked with its customers, how the customer has viewed this service, and what has been the immediate result (Service Specification - Section 5 Results Measurement Framework)
   - It requires the collection of individual data so we know who the provider is working with to enable us to monitor the immediate and longer results for customer (Service Specification – Section 6 Reporting)

8 Each of these aspects of the contract documentation is briefly discussed below, and the differences to the old contract documentation highlighted.
The contract is explicit about the outcomes being pursued

9 The Outcome Agreement identifies the relevant priority area of the Community Investment Strategy that the service is aligned to (vulnerable children, youth or adults), and outlines the intermediate outcomes that are relevant to the service being provided. The intermediate outcomes are positively-framed statements that describe what the customer and his or her family are being helped towards – for example “Whānau/family and caregivers are nurturing, engage with school and have the skills and knowledge to keep children safe and healthy”.

The contract specifies how the provision of the service is expected to contribute to the intermediate outcomes

10 The purpose of including the intermediate outcomes in the Outcome Agreement is to focus the provider on what the Ministry is trying to achieve for the customer. The intermediate outcomes are the consequence of a wide range of factors. For a particular service like SWIS they are important context, though are not the basis for measuring performance.

11 The connection between a contracted service and these higher-order outcomes is a new aspect of the contract, the Results Management Framework. The Results Measurement Framework outlines what we understand the links to be between:

- the evidence-based theory behind the service. The service specification outlines how we expect the service to operate to give it the best chance of making a positive difference in a customer’s life, based on what research and evaluation can tell us

- the immediate impact of the service (the client results). These are the changes we expect to see as a direct consequence of the customer working with the provider. They reflect the theory outlined in the service specification and are observable behaviours, like increased levels of interaction and increases in skills

- the longer term intermediate outcomes. The Results Measurement Framework includes indicators for the intermediate outcomes that we will monitor to see if there are observable differences over time in how vulnerable families are living their lives.

12 The Result Measurement Framework is included in the contract as part of the Service Specification – Section 5, and has been particularised for services in schools, including SWIS.

The contract includes measures of quality, quantity and impact rather than just measures of inputs

13 Previous contracts had tended to use generic measures of inputs (such as time supplied by a contracted party) or of volume (number of clients referred or seen). The focus on customers in the new contracts is reflected in the three types of performance measures for the contract. These include the client result measures mentioned above, alongside measures of:

- quantity – the new measures will provide more insight on the what has happened to customers as they have interacted with the service, rather than simply focusing on the total number who were referred

- quality – the new measures will differentiate between the progress customers made in receiving the service, and their perceptions of the service.

14 The table following outlines the performance measures for SWIS that will be reported on by the provider:
<table>
<thead>
<tr>
<th>Type of Measure</th>
<th>Measures</th>
</tr>
</thead>
</table>
| Quantity Measures | Of the number of clients during the reporting period:  
Number referred to the service  
Number started the service  
Number closed  
Number closed but made referral to another agency / service  
Number carried over from the last financial year (note: this is only reported on for the first report of the new financial year) |
| Quality Measures | Of the clients who closed during the reporting period:  
Percentage of clients starting the service  
Percentage who were assessed as "successfully completed"  
Percentage who provided formal "client satisfaction" feedback  
Percentage who reported that they were satisfied or very satisfied with the service |
| Client Result Measures | Of the clients who closed during the reporting period:  
Percentage of clients who have improved engagement in school  
Percentage of clients who report increased skills and/or confidence to manage challenging situations (pre and post intervention)  
Percentage of parents / caregivers with increased engagement with the school |

The new contract template includes provision for collecting and managing individual data

15 The new contracting arrangements depend on the collection of individual level data.

16 New provisions to include requirements to collect data on individual clients have been added to the Outcome Agreement and Service Specification documents. This provision includes requirements for clients to consent to the sharing of their information with the Ministry. This will allow us to track results for individual clients through the reported measures under the results measurement framework.

17 Data collection provisions can be found in Clause Six and Appendix Three of the Outcome Agreement and Section Six of the Service Specification.

18 We note that MBIE are proposing to include additional clauses to their Framework Terms and Conditions that will address legal requirements on providers and purchasing agencies in regard to client level data collection.

We are making changes to our contracting arrangements to improve our flexibility in purchasing and managing services

19 We are focusing on developing a suite of different options/elements that can be mixed and matched as appropriate for different types of services, different goals or results, different client groups and different levels of service intensity.
20 Elements include purchasing models, pricing, procurement and management processes. A range of tools and guidance is being developed for each part of the framework to help guide decisions about which mechanism to use for different types of services.

21 As an example, we have been working with Simpson Grierson to review our protections and escalation pathways. They have provided a report with options and recommendations for escalation pathways and amendments/additions to current contractual clauses. Simpson Grierson considers that:

- it is inevitable that issues arise from time to time across a large and complex portfolio of providers and programmes, despite the best intentions of all parties

- compared to “commercial” contracts, there are a number of special factors that need to be taken into account when considering escalation options for social service contracts

- our contracts have reasonable protections, however they have recommended a range of potential enhancements for the Ministry to consider.

22 An example of the kind of clause Simpson Grierson has recommended (around step-in rights) is included in Appendix Four.

23 Our broad response to Simpson Grierson’s recommendations, (given the special factors that exist for social service contracts, and the Ministry’s participation in the cross Government Streamline Contracting Framework), is not to include a lot of new clauses. Rather, our main focus will be on:

- improving our contract management processes and tools that specifically address escalations processes

- providing feedback to MBIE as part of their review of the Contracting Framework Tools, taking into consideration points raised by Simpson Grierson.

Next steps

24 We will continue to liaise with your office on our contracting changes.

25 If required we will make more information available to the Minister of Finance’s office, or provide opportunity for meetings to discuss details of our changes.

  [Results measures in Clause Four and Appendix One. Data collection provisions in Clause Six and Appendix Three]
- **Appendix Three**: Example Service Specification (separate document)
  [Results measures in Section Five. Data collection provisions in Section Six]

**Appendix Four**: Example new contractual clause – Step in rights (Attached)

File ref: REP/16/4/330
Appendix Four
Example new contractual clause – Step in rights.

26 Community Investment staff have been working with the legal firm Simpson Grierson to review current protections within our contracts, such as step-in rights and escalation pathways in the event of provider failure to deliver. We are in the process of analysing recommendations from Simpson Grierson. Final decisions have not yet been made, although it is likely that we will include additional provisions around the Ministry’s ‘right to step-in’ for some services.

27 The Ministry stepping in and performing services itself would rarely be done - we do not have the infrastructure or capability to perform most services ourselves; it would be more likely the Ministry would perform parts of the services itself (i.e. in a management or supervisory capacity) or procure a third party to perform such services.

28 The Ministry would include such step-in provisions as a special clause where it is justified by the particular risks of the service or provider and supported by the Ministry’s ability to step in. Selected services are likely to be those for Ministry clients that are critical to the business and where the continuity of service for vulnerable children and young people cannot be compromised if services cease e.g. Child, Youth and Family Residential Services. We are still in the process of determining exactly which services would include such provisions. Simpson Grierson advised that step-in rights should be exercised with caution but in some cases could provide the Ministry with a viable alternative to termination.

29 For example, SWIS is not a service for which we consider the Ministry would ‘Step-in’ to deliver all or parts of the service. The MBIE Framework Terms and Conditions coupled with the Ministry’s rights under the Approvals Accreditation Framework currently provides adequate provisions for the Ministry to address performance issues relating to the delivery of SWIS.

30 An example of a step-in provision from Simpson Grierson is set out below:

**Step-in:** At any time where the Ministry has the right to terminate this Agreement (or any part of it) by reason of the provider’s breach of this agreement, the Ministry may elect, to step in and perform some or all of the Services itself, or may procure a third party to perform such Services (Step-in Right).

**Step-in Notice:** If the Ministry exercises or proposes to exercise the Step-in Right, it must notify the Provider of:

(a) the action it wishes to take and which Services, or parts of the Services, are, or are to be, performed by the Ministry (or its nominee) (the Suspended Services) for the duration of the Step-in Period;

(b) the reasons for the exercise of its Step-in Right;

(c) when the Step-in Period will commence and how long the Ministry expects the Step-in Period to last; and

(d) to the extent practicable, the effect of the Step-in Action on the Provider and any Services still required to be performed by the Provider.

**Step-in Action:** Following receipt by the Provider of a Step-in Notice:

(a) the Ministry may take the action notified, together with such consequential additional action as it reasonably believes necessary (Step-in Action);

(b) the Provider must, with effect from the commencement of the Step-in Period, cease
performing all aspects of the Suspended Services in respect of which the Step-in Right is being exercised; and

c) give all reasonable assistance to the Ministry (or its nominee), while the Ministry is taking Step-in Action, including by making its resources available to the Ministry (or its nominee) and by directing its sub-contractors and personnel to assist the Ministry (or its nominee) as reasonably required.

Costs and Fees: The Provider must reimburse the Ministry in full for the costs to the Ministry incurred as a result of it having to perform or procure a third party to perform the Suspended Services during the Step-in Period (provided that, to the extent that the Ministry performs the Suspended Services using its existing resources, it may, when calculating the costs of performing the Suspended Services, allocate, in its reasonable discretion, a portion of the overall costs of those resources as a cost of performing the Suspended Services). During the Step-in Period the [fees] payable to the provider under this Agreement will continue to be payable despite the exercise of the Step-in Right.

Step-out Notice: Once the event giving rise to the Step-in Right has ceased or been resolved, to the Ministry's reasonable satisfaction, the Ministry must give notice to the Provider specifying the date from which the Ministry will conclude the exercise of the Step-in Right (Step-out Notice).

End of step-in: The Provider must recommence its performance of the relevant Services on the date specified in the Step-out Notice.

No effect on other remedies: The exercise by the Ministry of a Step-in Right will be without prejudice to any other rights or remedies of the Ministry, including the right to subsequently exercise its termination rights in relation to the event that gave rise to the Step-in Right.
Framework Terms and Conditions

Introduction

These Framework Terms and Conditions form part of the contract to allow one or more Purchasing Agencies to purchase outcome-focussed services from the Provider.

These Framework Terms and Conditions will apply to all services the Provider agrees to provide under an Outcome Agreement and are incorporated by reference into every Outcome Agreement. Where more than one Purchasing Agency is a party to an Outcome Agreement these Framework Terms and Conditions will generally apply as between the Provider and the Purchasing Agency in respect of the Services provided by the Provider to that Purchasing Agency.

Purpose & Context Statement

The Purchasing Agency and Provider each agree that the purpose of providing the Services is to make a positive contribution to improving:

- the lives of whānau of any ethnicity and vulnerable persons living in New Zealand; and/or
- access to justice and reducing crime and its effects on the community.

Where relevant, Purchasing Agencies will take collective responsibility for providing a consistent and co-ordinated across-Government approach to engaging and working with the Provider. Each Purchasing Agency must sign the Government Agency Agreement that records how the Purchasing Agency will work together with other Purchasing Agencies to perform those aspects of these Framework Terms and Conditions that require collaboration between them.

Relationship Principles

The Purchasing Agency and Provider will work together to ensure that the Services are accessible and effective in contributing towards achieving the Outcome, and to that end agree to:

- act honestly and in good faith;
- communicate openly and in a timely manner;
- work in a collaborative and constructive manner – including towards the resolution of real or perceived problems and issues;
- recognise each other’s responsibilities;
- encourage quality and innovation to achieve positive outcomes; and
- maximise the value for money to the Government in purchasing services that contribute towards achieving specified outcomes – including by ensuring appropriate flexibility so that services can be adapted (following discussion) to meet identified and agreed needs.
The Purchasing Agency and Provider acknowledges that these Framework Terms and Conditions reflect these principles in action.

These Framework Terms and Conditions use a number of defined terms and the corresponding definitions and interpretation section is in Schedule One.

1. **Term**

1.1 These Framework Terms and Conditions apply for the term of any Outcome Agreement signed by the Purchasing Agency and Provider.

2. **Becoming a Purchasing Agency**

2.1 An Eligible Agency may request the Provider perform Services and the Provider will perform those Services subject to:

   (a) each Eligible Agency and the Provider first signing an Outcome Agreement; and

   (b) the Eligible Agency signing a Government Agency Agreement with the Co-ordinating Agency.

An Eligible Agency will become a Purchasing Agency upon signing an Outcome Agreement and a Government Agency Agreement.

2.2 The Purchasing Agency commits to act consistently with the provisions of:

   (a) these Framework Terms and Conditions;

   (b) each Outcome Agreement it has signed; and

   (c) each Outcome Agreement Management Plan.

2.3 Despite clause 2.2 and to avoid doubt:

   (a) no Outcome Agreement Management Plan will create legally binding obligations between the Purchasing Agency and Provider, instead it is a contract management tool designed to help make sure ‘best practice’ is applied in managing and maximising the benefits of the relationship between the Purchasing Agency and Provider;

   (b) the obligations recorded in any Remedy Plan will be legally binding obligations between the Purchasing Agency and Provider; and

   (c) a Government Agency Agreement only creates legally binding obligations (to the extent permissible at Law) between the Co-ordinating Agency and the Purchasing Agency.
3. **Services**

3.1 The Provider will provide the Services in accordance with these Framework Terms and Conditions and the Outcome Agreement and so as to contribute towards achieving each Outcome described in the Outcome Agreement.

4. **Payment**

4.1 Subject to clause 13 (Recovery, Reduction or Suspension of Payments), in return for providing the Services the Purchasing Agency will pay the Provider the amounts, and at the times, recorded in the Outcome Agreement.

4.2 At the times and/or frequency specified in the Outcome Agreement, the Provider (or its nominee) will issue a valid tax invoice to the Purchasing Agency for the Services provided (or to be provided) to that Purchasing Agency under the Outcome Agreement.

5. **Contract management – Communication, Monitoring, Reporting and Audit**

5.1 The Purchasing Agency will follow best practice contract management behaviours to ensure that its contract management requirements appropriately reflect the nature and value of the Services and are principally focused on evaluating and enhancing the effectiveness of the Services to contribute towards achieving each Outcome described in the Outcome Agreement.

5.2 **Regular communication and monitoring**

(a) The Purchasing Agency and the Provider will maintain regular contact with each other for the purpose of:

(i) monitoring the Provider’s performance against its obligations under the Outcome Agreement;

(ii) encouraging the on-going review and assessment of the effectiveness of the Services;

(iii) providing mutual constructive feedback that will enhance the effectiveness of the Services; and

(iv) identifying early any issues and opportunities to do things better on the part of each party.

(b) Any scheduled monitoring activity the Purchasing Agency wants to undertake will be specified in the Outcome Agreement.
Regular Reporting Activity

5.3 To augment the regular communication described in clause 5.2, the Provider will provide the information and reports recorded in the Outcome Agreement (Regular Reports) at the times or frequency specified in the Outcome Agreement.

Special Enquiry Rights and Reports

5.4 If the Purchasing Agency, acting reasonably, believes that the Provider has breached the terms of the Outcome Agreement, the Purchasing Agency may, acting reasonably, require the Provider to:

(a) furnish it with further information to establish whether a breach has occurred, and if so why it occurred; and/or

(b) submit to an audit to establish whether a breach is an isolated event or one of multiple breaches

(collectively referred to as Special Enquiry Rights).

Statutory review or audit

5.5 The Purchasing Agency or its nominee, may carry out any audit or review of the Provider and/or Services permitted or required by Law (Statutory Audit Rights). To avoid doubt, nothing in clause 5.6 of these Framework Terms and Conditions limits a Purchasing Agency’s right to conduct an audit or review that is authorised by Law. The Purchasing Agency will specify in the Outcome Agreement any statutory audit or review activity it intends to conduct during the term of the Outcome Agreement.

Principles of co-ordination and co-operation

5.6 The Purchasing Agency agrees that it will co-ordinate and co-operate with the Provider and each Other Purchasing Agency to try to ensure (to the extent reasonable and practicable in the circumstances) that:

(a) the Purchasing Agency and each Other Purchasing Agency’s requirements for Regular Reports can be aligned and satisfied at the same time or frequency and by a single report covering all relevant matters;

(b) it gives the Provider and each Other Purchasing Agency reasonable notice in advance of:

(i) exercising any Special Enquiry Rights, including providing details of the breach or suspected breach and what it wants from the Provider;

(ii) exercising any Statutory Audit Rights, including describing the Law under which the audit or review will be conducted;
(c) its own exercise of any Special Enquiry Rights will also provide any further information or explanation that any Other Purchasing Agency may want in connection with the circumstances giving rise to the exercise of such right; and

(d) it will not exercise any Special Enquiry Rights or Statutory Audit Rights (to the extent permissible at Law) more often than once in any calendar year unless the Purchasing Agency, acting reasonably, believes the Provider has breached the Outcome Agreement.

5.7 The Provider will provide the Purchasing Agency (or its nominee) with access to the Provider’s premises and appropriate personnel and records to allow the exercise of Special Enquiry Rights and Statutory Audit Rights by the Purchasing Agency.

5.8 The Purchasing Agency may share Confidential Information generated from the Regular Reporting and the exercise of the Special Enquiry Rights and Statutory Audit Rights with the audience described in the Outcome Agreement.

Relationship Manager

5.9 The Provider and each Purchasing Agency will appoint and keep a Relationship Manager for each Outcome Agreement. The appointing party may change its Relationship Manager at any time by giving notice to any other party to that Outcome Agreement. The Relationship Managers for each Outcome Agreement will maintain regular contact in accordance with these Framework Terms and Conditions and the Outcome Agreement Management Plan (if any).

6. Conditions

6.1 The Outcome Agreement may include conditions that must be satisfied or complied with by either the Provider or the Purchasing Agency (Conditioned Party) and the consequence if the condition is not satisfied or complied with. To clarify, whichever of the Provider or Purchasing Agency that is not required to satisfy or comply with a particular condition, is referred to as the “Non-Conditioned Party” in respect of that condition.

6.2 The Outcome Agreement is subject to the nominated Conditioned Party satisfying the conditions recorded in the Outcome Agreement that must be satisfied before the Outcome Agreement will be in full effect.

6.3 If the Conditioned Party does not satisfy or comply with any condition that is specified in the Outcome Agreement as having to be satisfied or complied with after the Outcome Agreement is in full effect, the Non-Conditioned Party, may do any one or more of the following:

(a) take the action it is allowed to under the Outcome Agreement;

(b) require a Remedy Plan to be agreed (if appropriate) and require the Conditioned Party to perform all actions recorded in the Remedy Plan. However, if a Remedy
Plan is not entered by a date specified by the Non-Conditioned Party (acting reasonably), the Non-Conditioned Party can then take any other action it is allowed to under the Outcome Agreement;

(c) suspend some or all of the Services being provided under the Outcome Agreement (and if relevant, suspend payment for those Services) on giving written notice to the Conditioned Party; or

(d) exercise any other rights the Non-Conditioned Party has, or enforce consequences that result under the Outcome Agreement (including these Framework Terms and Conditions).

7. **Information to Purchasing Agency**

7.1 The Provider must provide written notice to the Purchasing Agency if:

(a) the Provider proposes to change its legal structure and, after receipt of such a notice, the Purchasing Agency and the Provider will consult with each other concerning what an appropriate response should be;

(b) any of the Provider’s personnel (staff or governance) or contractors are being investigated for, have been charged with, or convicted of any criminal offence that, viewed objectively and reasonably, represents a material risk to the performance of the Services or the achievement of the Outcome(s) (including because it might damage the reputation of either the Provider or the Purchasing Agency were it to be publicly known), and, after receipt of such a notice, the Purchasing Agency and the Provider will discuss with each other concerning what an appropriate response should be.

8. **Incentives**

8.1 If the Outcome Agreement provides for an Incentive and the Provider satisfies the criteria for receiving that Incentive, the Purchasing Agency will provide the Incentive to the Provider in accordance with the Outcome Agreement.

9. **Dispute Resolution**

9.1 If any party wishes to raise a dispute relating to the Outcome Agreement (including these Framework Terms and Conditions) (Dispute), it may do so by giving written notice to the other parties to the Outcome Agreement who are involved in that Dispute (Disputing Parties) detailing the nature of the dispute (Dispute Notice).

9.2 The Disputing Parties will try to negotiate resolution of the Dispute through their Relationship Managers in the first instance.

9.3 If the Relationship Managers of the Disputing Parties cannot resolve the Dispute within 21 days of receiving the Dispute Notice, any Disputing Party may by written notice to all
Disputing Parties refer the Dispute to be resolved by mediation. Each Disputing Party will participate in a mediation to resolve the Dispute. If all the Disputing Parties cannot agree on a mediator within 28 days of the referral, the Chairperson of LEADR New Zealand Incorporated (or its successor entity) will appoint the mediator.

9.4 No Purchasing Agency or Provider may commence any formal legal proceedings in respect of a Dispute unless it has first complied with clauses 9.2 and 9.3, unless it is necessary to preserve its rights.

10. Confidentiality

10.1 Confidential Information

The Purchasing Agency and Provider will treat as confidential and not disclose or use any information relating to or obtained in connection with the Outcome Agreement and any information derived from that information (Confidential Information) without first obtaining the written consent of the party that owns or provided the Confidential Information.

10.2 Permitted disclosure

Clause 10.1 does not prevent disclosure or use of Confidential Information by a party if:

(a) the disclosure or use is necessary to perform its obligations, or to exercise its rights, under or in relation to the Outcome Agreement (for example, to give effect to clauses 5.6 (Principles of Co-ordination and Cooperation), 5.8 (Information Sharing) and 12.3(d) (Orderly Transition of Services) of these Framework Terms and Conditions) or is expressly authorised or required by the Outcome Agreement;

(b) the Confidential Information is known, or becomes known to the public other than because of a breach of this clause 10 by that party and the party who provided the Confidential Information no longer requires it to be kept confidential; or

(c) the recipient is required by Law or Parliamentary convention to disclose such information.

10.3 Confidentiality undertaking required

(a) If these Framework Terms and Conditions or an Outcome Agreement permit disclosure of any Confidential Information to any third party, the Provider and the Purchasing Agency (as applicable) may only disclose that Confidential Information to that third party (including an auditor appointed under clauses 5.4 or 5.5) if it first obtains a written confidentiality undertaking from that third party in terms substantially similar to those set out in this clause 10, provided that no confidentiality undertaking is required if the reason for disclosure is described in clause 10.2(b) or (c).
(b) To avoid doubt, an employee of the Purchasing Agency or Provider is not a third party for the purpose of clause 10.3(a). Confidential Information may be disclosed to an employee of the Purchasing Agency or Provider provided the employee is subject to an obligation requiring the employee to maintain the confidentiality of any information he/she becomes aware of through the course of the employee’s employment with the Purchasing Agency or Provider.

10.4 Personal Information

The Purchasing Agency and Provider agree that:

(a) the Confidential Information of a party includes all “personal information” (as that term is defined in the Privacy Act 1993) in the possession of that party; and

(b) despite what is otherwise allowed under clauses 10.1 and 10.2, and in addition to what is required under clause 10.3 (a confidentiality undertaking), personal information may only be disclosed by a party (including to the other party or a third party) if the person who the personal information relates to has given their written consent to that disclosure.

11. Intellectual Property

11.1 The Purchasing Agency and Provider retain ownership of all Intellectual Property Rights they respectively owned before the commencement date of the Outcome Agreement. Signing the Outcome Agreement does not give either party any rights to use any Intellectual Property Rights of the other party unless specifically agreed.

11.2 Subject to clause 11.3, all new Intellectual Property Rights created by the Provider while performing Services under the Outcome Agreement (New IP) will be owned by the Provider unless:

(a) the Provider and the Purchasing Agency cannot reach agreement (in writing) on the Agreed Uses under clause 11.3(a), in which case the Purchasing Agency (and not the Provider) will own all New IP; or

(b) the Purchasing Agency and Provider agree that New IP will be owned by the Purchasing Agency (alone or jointly with the Provider), in which case the specified New IP will be owned as recorded in the Outcome Agreement.

11.3 The Provider and the Purchasing Agency will discuss how any New IP is to be owned and used, and try to agree (in writing) mutually acceptable use terms (Agreed Uses). In addition:

(a) in respect of New IP to be owned solely by the Provider, the Provider grants the Purchasing Agency a perpetual, irrevocable, royalty-free and non-exclusive licence to use, modify and copy such New IP for any purpose connected with the performance of the Outcome Agreement and any Agreed Uses; and
(b) in respect of New IP to be owned solely by the Purchasing Agency, the Purchasing Agency grants the Provider a perpetual, irrevocable, royalty-free and non-exclusive licence to use, modify and copy such New IP for any purpose connected with the performance of the Outcome Agreement and any Agreed Uses; and

(c) in respect of New IP to be jointly owned by the Provider and the Purchasing Agency, each of them grants the other the right to use, modify and copy such New IP for any purpose connected with the performance of the Outcome Agreement and any Agreed Uses.

11.4 If the Purchasing Agency or Provider uses or makes available to the other any Intellectual Property Rights in connection with an Outcome Agreement or other Agreed Uses then it warrants that those Intellectual Property Rights can be used for that purpose without infringing the Intellectual Property Rights of any third party.

11.5 The Purchasing Agency and Provider each agree to do anything else reasonably required by the other to give effect to this clause 11 and will also make sure that their personnel and contractors do the same.

12. Termination

12.1 Termination of an Outcome Agreement for convenience

Unless specified otherwise in the Outcome Agreement, the Purchasing Agency or the Provider may terminate its participation in the Outcome Agreement, or any part of it, by giving the other at least 90 days prior written notice, unless an alternative period is agreed in writing.

12.2 Termination of Outcome Agreement for breach

(a) Unless specified otherwise in the Outcome Agreement and subject to clauses 12.2(b) and (c), the Purchasing Agency or the Provider may terminate its participation in the Outcome Agreement, or any part of it, if the other breaches any term of the Outcome Agreement and such breach is not remedied within 14 days of receiving the other’s written notice of the breach, unless an alternative remedy period is agreed in writing.

(b) The non-breaching party may allow the breach to be subject to a Remedy Plan. However, if a Remedy Plan is not entered by a date specified by the non-breaching party (acting reasonably), the non-breaching party will be able to exercise the right in clause 12.2(a) for that breach.

(c) If the Provider and the Purchasing Agency enter into a Remedy Plan:

(i) both the Provider and Purchasing Agency (whichever is relevant) will perform the tasks specified for it under the Remedy Plan;
(ii) the non-breaching party will not be able to exercise the right in clause 12.2(a) for the breach that is subject to the Remedy Plan; and

(iii) any breach of that Remedy Plan will give the non-breaching party the right to terminate the Outcome Agreement in accordance with clause 12.2(a), without having to enter a new Remedy Plan.

12.3 **Consequences of termination of any Outcome Agreement**

(a) If the Outcome Agreement or any part of it is terminated under clause 12.1 or 12.2, the Provider must stop performing the relevant Services described in the Outcome Agreement for the Purchasing Agency from the date of termination of the Outcome Agreement unless an alternative date for stopping the Services is agreed.

(b) Subject to clause 13.1, the Purchasing Agency will pay the Provider for all Services provided up to and including the date the Outcome Agreement is terminated.

(c) The Provider will repay the Purchasing Agency that portion of funding already paid to the Provider for Services that will not be provided as a consequence of terminating the Outcome Agreement. Clauses 13.2 and 13.3 will apply to any repayments under this clause 12.3(c).

(d) The Purchasing Agency and the Provider will discuss how to ensure that there is an orderly transition of the applicable Services from the Provider to any replacement provider following termination of the Outcome Agreement, agree a plan and implement their respective obligations under that plan.

12.4 **Where one, but not every, Purchasing Agency terminates an Outcome Agreement**

(a) If more than one Purchasing Agency is party to the Outcome Agreement, and any (but not every) Purchasing Agency terminates its participation in the Outcome Agreement, or any part of it, under clauses 12.1 or 12.2 (*Exiting Purchasing Agency*), the remainder of the Outcome Agreement will not be terminated.

(b) The Provider will continue to perform the Services for the remaining Purchasing Agency/ies.

(c) Subject to clause 13.1, the *Exiting* Purchasing Agency will pay the Provider for all Services provided up to and including the date the termination of the *Exiting* Purchasing Agency’s participation in the Outcome Agreement becomes effective.

12.5 **Survival**

Clauses 5 (Contract Management), 9 (Dispute Resolution), 10 (Confidentiality), 11 (Intellectual Property), 12.1 to 12.4 (inclusive) (Termination), 13 (Recovery, Reduction or Suspension of Payments), 14 (Indemnity) and Schedule One (Definitions and Interpretation) all survive termination or expiry of the Outcome Agreement.
13. **Recovery, Reduction or Suspension of Payments**

13.1 If the Provider does not:

(a) provide the Services in accordance with the Outcome Agreement, including without limitation;

(i) meeting any Service delivery targets or performance measures recorded in an Outcome Agreement; or

(ii) satisfying any conditions that can result in the Purchasing Agency suspending or terminating the Services under an Outcome Agreement,

the Purchasing Agency may:

(b) require the Provider to:

(i) repay a portion of funding already paid to the Provider; or

(ii) reduce the amount to be paid on subsequent payment dates; or

(c) suspend or delay payment of a portion of the amount to be paid on subsequent payment dates until a Remedy Plan is agreed and its obligations are performed.

13.2 Any amount to be repaid, reduced, suspended or delayed pursuant to clause 13.1 or 12.3(c) will be determined by the Purchasing Agency acting reasonably and following a discussion with the Provider regarding the quality and quantity of Services that were provided or the circumstances relevant to the suspension or delay in payment.

13.3 The Provider must repay the Purchasing Agency within 30 days of the date the Purchasing Agency provides written notice of the amount to be repaid to the Provider.

14. **Indemnity**

14.1 The Provider will indemnify the Purchasing Agency against all losses suffered or incurred by the Purchasing Agency as a result of any claim by a third party that its Intellectual Property Rights or other rights have been breached as a consequence of the Provider’s breach of the Outcome Agreement, including these Framework Terms and Conditions, except to the extent caused by the Purchasing Agency’s negligence, breach of the Outcome Agreement or wilful misconduct.

15. **General Terms**

15.1 **Relationship of Purchasing Agencies:** In relation to the Outcome Agreement, the Purchasing Agency is only responsible for its own contracted obligations, and will not be responsible for any obligations identified in the Outcome Agreement as being owed by any Other Purchasing Agency.
15.2 **Variation process:** The Outcome Agreement may be varied with the written agreement of the Purchasing Agency and the Provider. If Other Purchasing Agencies are also party to the Outcome Agreement, and the proposed variation only relates to Services being provided to one Purchasing Agency, then only the written agreement of that Purchasing Agency and the Provider is required to make that variation.

15.3 **No subcontracting without consent:** The Provider may not subcontract the performance of any of the Services without first obtaining the prior written consent of the Purchasing Agency, such consent not to be unreasonably withheld. The Provider is responsible for the acts and omissions of any subcontractor. If Other Purchasing Agencies are also party to the Outcome Agreement and subcontracting of performance of a Service by the Provider only affects one Purchasing Agency then only the prior written consent of that Purchasing Agency is required under this clause 15.3.

15.4 **Assignment:** The Provider may not assign, novate or transfer its rights or obligations under the Outcome Agreement without first obtaining the permission of the Purchasing Agency and such permission will not be unreasonably withheld.

15.5 **Comply with Laws:** The Purchasing Agency and the Provider will comply with all Laws applicable to them and their activities and not cause the other to breach any Law that relate to the provision of Services under the Outcome Agreement.

15.6 **Entire Agreement:** The Outcome Agreement incorporates these Framework Terms and Conditions and read together they record the entire agreement between the Provider and Purchasing Agency in relation to the supply of Services under the Outcome Agreement and supersede all previous oral or written agreements concerning the same subject matter.

15.7 **Enforceability:** If any clause of the Outcome Agreement (including any of these Framework Terms and Conditions) is held to be illegal, invalid or unenforceable, it will be removed from the Outcome Agreement without affecting any other clause.

15.8 **Waiver:** The failure or delay by the Purchasing Agency or the Provider to exercise or enforce any right under the Outcome Agreement (including any of these Framework Terms and Conditions) will not operate as a waiver of that right, unless such waiver is recorded in writing and sent to the relevant party by the party waiving that right.

15.9 **Notices:**

(a) Each notice or other communication under the Outcome Agreement (including any of these Framework Terms and Conditions) will be made in writing and delivered by post, personal delivery or email to the addressee at the addressee’s postal address, physical address or email address (as applicable), marked for the attention of the person or office holder (if any) from time to time designated for that purpose by the addressee.

(b) A notice or other communication will be deemed to be received:
(i) in the case of a letter sent to the addressee's postal address, on the second Business Day after posting;

(ii) in the case of personal delivery, on receipt; and

(iii) in the case of email at the time the email leaves the communications system of the sender, provided that the sender:

(A) does not receive any error message relating to the sending of the email at the time of the sending; and

(B) has obtained confirmation that the email has been delivered to the recipient (which confirmation may be in the form of an automated delivery receipt from the communications system of the recipient), on the day on which it is dispatched or, if dispatched after 5 p.m. (in the place of receipt) on the next Business Day after the date of dispatch.

15.10 **Conflict of interest:** The Provider must advise the Purchasing Agency of whether and whenever it has any actual, potential or perceived Conflict of Interest in connection with the provision of the Services specified in the Outcome Agreement, and follow the directions of the Purchasing Agency if the Purchasing Agency notifies the Provider that it has determined that the Provider has an actual, potential or perceived Conflict of Interest.
Schedule One: Definitions and Interpretation

Definitions: In these Framework Terms and Conditions, and in the Outcome Agreement, unless the context otherwise requires:

Business Day means any day of the year other than:

(a) Saturday, Sunday, Waitangi Day, Good Friday, Easter Monday, Anzac Day, the Sovereign’s Birthday, and Labour Day;

(b) a day commencing on the 24th day of December in any year and ending on the 5th of January in the following year, both days inclusive; and

(c) the day observed as the anniversary of Wellington, New Zealand and the province where the Provider’s head office is located;

Conflict of interest means any matter, circumstance, interest or activity of the Provider, its personnel, contractors, subcontractors, or any other person with whom the Provider has a relationship arising by whatever means that directly or indirectly conflicts with:

(a) the duties of the Provider and any of its personnel, contractors or subcontractors to the Purchasing Agency under the Outcome Agreement; or

(b) the interests of the Purchasing Agency in relation to the Outcome Agreement or otherwise in respect to the provision of Services to the Purchasing Agency;

or otherwise impairs or might appear to impair the ability of the Provider (or any of its personnel, contractors or subcontractors) to diligently and independently provide the Services to the Purchasing Agency under the Outcome Agreement;

Co-ordinating Agency means the Ministry of Business, Innovation and Employment;

Eligible Agency means

(a) each Public Service department, as defined in section 27 of the State Sector Act 1988;

(b) the New Zealand Defence Force, the New Zealand Police, the New Zealand Security Intelligence Service, the Parliamentary Counsel Office, the Clerk of the House of Representatives and the Parliamentary Corporation;

(c) each Crown Entity, as defined in section 7 of the Crown Entities Act 2004;

(d) each organisation listed in the fourth schedule to the Public Finance Act 1989;

(e) the Office of the Controller and Auditor-General, the Office of the Ombudsmen, and the Office of the Parliamentary Commissioner for the Environment;
(f) each corporation listed in the first schedule to the State Owned Enterprises Act 1986;

(g) each local authority, as defined in section 5 of the Local Government Act 2002; and

(h) any other organisation, agency or person that does not fall within the above categories but which the Co-ordinating Agency determines should be treated as an eligible agency for the purposes of these Framework Terms and Conditions;

**Framework Terms and Conditions** means these terms and conditions;

**Incentive** means an incentive (if any) that a Purchasing Agency has agreed to offer to a Provider under the Outcome Agreement, such incentive being subject to any criteria described in the Outcome Agreement;

**Intellectual Property Rights** means all present and future intellectual property rights as may exist anywhere in the world, whether conferred by statute, at common law or in equity, and whether or not registered or capable of registration, including patent rights, copyright and design rights and any proprietary business methodology or “know-how”;

**Government Agency Agreement** means the agreement between the Co-ordinating Agency and a Purchasing Agency relating to the management of their relationship with each other and other Purchasing Agencies in relation to Providers who are party to Outcome Agreements;

**Law** means:

(a) any statute, regulation, bylaw, ordinance or subordinate legislation in force from time to time to which a party is subject;

(b) the common law and the law of equity as applicable to the parties from time to time;

(c) any binding court order, judgment or decree;

(d) any applicable industry code, convention, policy or standard enforceable by law; and

(e) any applicable direction, policy, permission, consent, licence, rule or order that is binding on a party and that is made or given by any governmental, legal or regulatory body having jurisdiction over a party or any of that party’s assets, resources or business,

in any jurisdiction that is applicable to an Outcome Agreement;

**Other Purchasing Agency** means each other Purchasing Agency that is also a party to the Outcome Agreement;

**Outcome** means each outcome described in the Outcome Agreement;
**Outcome Agreement** means the Outcome Agreement signed by one or more Eligible Agencies and the Provider detailing the Services;

**Outcome Agreement Management Plan** means, if applicable for the Outcome Agreement, the contract management plan relating to how the Purchasing Agency and any Other Purchasing Agencies and the Provider will work together under the Outcome Agreement;

**Provider** means the non-government organisation named as the provider in an Outcome Agreement;

**Purchasing Agency** means an Eligible Agency that has signed an Outcome Agreement and the Government Agency Agreement;

**Relationship Manager** means the relationship manager appointed by each party and named as a relationship manager in an Outcome Agreement;

**Remedy Plan** means a written plan that may be entered into by the Provider and the Purchasing Agency to address any non-performance issues, such Remedy Plan will identify:

(a) the non-performance issue;

(b) how and why the non-performance issue arose; and

(c) what action the Provider or the Purchasing Agency (whichever is relevant) must take to address or resolve the non-performance issue to the satisfaction of the other, and a timetable for such actions to be completed;

**Services** means, for an Outcome Agreement, each of the services the Provider will perform to contribute towards achieving each Outcome as described in the Outcome Agreement.

**Interpretation**: Unless the context otherwise requires:

(a) a reference to documentation (including these Framework Terms and Conditions) includes a reference to that document as varied, supplemented, novated or substituted from time to time;

(b) headings are not to be used for interpretation;

(c) the Introduction, Purpose & Context Statement and Relationship Principles form part of these Framework Terms and Conditions; and

(d) the singular includes the plural and vice versa.

Dear DeeAnn

Re: Outcome Agreement Number 323867

Following your earlier acceptance of the Ministry’s offer of funding (the Letter of Offer), please see attached for your consideration your Outcome Agreement.

Please review this Outcome Agreement and, provided it is satisfactory, arrange to have it signed in accordance with the rules of your organisation. Please ensure:

- the Outcome Agreement is signed (refer to page six), scanned and emailed as a PDF to Contract_Development_Team@msd.govt.nz
- you attach a blank bank deposit slip as evidence of the bank account the funds are to be direct credited to (if not previously supplied)
- an invoice, including the Outcome Agreement number as stated in the footer of the Outcome Agreement (or in Appendix 5 if more than one reference number has been used), along with a description of services and the contracted quantity is provided to the Ministry to enable payment.

This Outcome Agreement will not come into force until it is signed by all Parties. A copy will be emailed to you at deeann@tewhare.org.nz once signed on behalf of the Crown. This funding is also subject to government policies which may change throughout the term of the Outcome Agreement.

Further information

Please note the addition of a new clause under Appendix 11 – Further Terms in your Outcome Agreement. This clause reflects the priority of both Parties to ensure that the ongoing needs of clients are met.

Further information relevant to your Outcome Agreement is available online:

All services in the Outcome Agreement have corresponding guidelines. All guidelines are available online as follows:

Any questions?

The Ministry will keep talking with you over the course of 2015 about any changes and how we can continue to streamline and improve our contracting processes.

In the meantime, if you have any queries about the contents of this letter or the Outcome Agreement please contact me. If you do not wish to enter into this Outcome Agreement, please let me know as soon as possible.

Yours faithfully

Sue Jones
Community Investment Advisor

Outcome Agreement

Parties

Her Majesty the Queen in right of New Zealand acting by and through the Chief Executive of the Ministry of Social Development (Purchasing Agency).

ABC Trust incorporated under the Charitable Trusts Act 1957 and having its registered office at 210 Redoubt Road, Flat Bush, Manukau 2106 (the Provider).

Introduction

A. This Outcome Agreement forms part of the Government's Streamlined Contracting Framework, along with a set of umbrella terms and conditions known as the "Framework Terms and Conditions" that will apply to contracts between the Purchasing Agency and the Provider relating to social, public health, justice and education service/s. The Framework Terms and Conditions are posted on www.business.govt.nz and form an integral part of this Outcome Agreement.

B. This Outcome Agreement describes the:

(i) Outcome/s to be achieved;
(ii) Service/s that the Provider will provide to contribute towards achieving the Outcome/s; and
(iii) Performance measurement framework to assess the provision of the Service/s, and whether the Service/s have contributed towards achieving the Outcome.

C. The sections in the Framework Terms and Conditions headed “Introduction”, “Purpose and Context Statement” and “Relationship Principles” set the relationship background relevant to this Outcome Agreement.

D. The Purchasing Agency confirms that it has signed a Government Agency Agreement with the Coordinating Agency and will ensure that at all times throughout the term of this Outcome Agreement it maintains in place a signed Government Agency Agreement.

Framework Terms and Conditions – Future Differences

If the Framework Terms and Conditions posted on www.business.govt.nz for future general use, are ever different to those that apply when this Outcome Agreement is entered into (Updated Framework Terms and Conditions), then:

(a) Any future Outcome Agreement which the Provider enters into with the Purchasing Agency (or another Purchasing Agency), after the date which the Updated Framework Terms and Conditions are publicly posted on www.business.govt.nz will incorporate (or have appended to it) the Updated Framework Terms and Conditions; and

(b) If the Provider and Purchasing Agency agree to it, the Updated Framework Terms and Conditions will also apply to this Outcome Agreement from an agreed date, and any Framework Terms and Conditions already incorporated into (or appended to) this Outcome Agreement will be deemed to be removed and replaced by those publically posted Updated Framework Terms and Conditions.

1 Relationship between this Outcome Agreement and the Framework Terms and Conditions

1.1 This Outcome Agreement is deemed to incorporate all the Framework Terms and Conditions. Accordingly, the Framework Terms and Conditions apply to the Service/s under this Outcome Agreement.
1.2 Unless the context otherwise requires, all terms defined in the Framework Terms and Conditions have the same meaning in this Outcome Agreement.

1.3 The Introduction above forms part of this Outcome Agreement.

2 Not an Integrated Outcome Agreement

2.1 This Outcome Agreement is not suitable for situations where more than one Purchasing Agency wants to contract with the Provider in a single Outcome Agreement.

3 Term of this Outcome Agreement

3.1 This Outcome Agreement will commence on 01 July 2016 and end on 30 June 2017 unless extended pursuant to clause 3.2, or terminated earlier in accordance with the Framework Terms and Conditions or as otherwise allowed at Law.

3.2 The Purchasing Agency may extend the term of this Outcome Agreement for further periods by giving the Provider notice it wishes to extend the term, at least 30 days before the date when the term would otherwise expire.

4 Services, Outcome(s) and Performance Measures

4.1 The Provider will provide the Services described in Appendix 1.

4.2 The Provider will provide the Services set out in Appendix 1 to satisfy the performance measures set out in the Provider Return Report attached as Appendix 12. The performance measures will be used to determine whether the Provider has been successful in delivering each Service in accordance with this Outcome Agreement so as to contribute toward achieving the Outcome linked to each Service.

4.3 In providing the Services the Provider must follow the reasonable directions of the Purchasing Agency. Such directions must be consistent with the terms of this Outcome Agreement.

5 Monitoring by the Purchasing Agency

5.1 The Purchasing Agency will undertake and maintain the scheduled monitoring activities at the times and frequencies set out in Appendix 2.

6 Regular Reporting by the Provider

6.1 In providing the Service(s), the Provider will provide the Purchasing Agency with reports that include the details specified, at the times and frequency set out in Appendix 3.

7 Regular Audits of the Provider

7.1 The Purchasing Agency is currently required or permitted by Law to conduct the audit or review of the Provider during the term of this Outcome Agreement as set out in Appendix 4, with those audits or reviews being conducted on or around the times specified in Appendix 4.

8 Payment

8.1 Subject to the Purchasing Agency's rights under clause 13.1 to 13.3 of the Framework Terms and Conditions (Recovery, Reduction or Suspension of Payment/s), the Purchasing Agency will pay the Provider the amounts specified for the Service/s, at the time/s and subject to any pre-conditions set out in Appendix 5.
9 Conditions

9.1 The Provider must satisfy or comply with the Special Terms and Conditions as set out in Appendix 6.

9.2 If the Provider fails to satisfy or comply with any of the conditions it is responsible for:

(a) the Provider must notify the Purchasing Agency of that failure as soon as reasonably practicable; and

(b) the applicable consequence set out in Appendix 6 will apply and, if none are specified for that condition, the consequence will be that the Purchasing Agency may do any one or more of the following:

(i) require a Remedy Plan to be agreed (if appropriate) and require the Provider to perform all actions recorded in the Remedy Plan;

(ii) suspend some or all of the Service/s (and suspend payment for those Service/s) on giving written notice to the Provider;

(iii) exercise its rights under clause 13.1 to 13.3 of the Framework Terms and Conditions (Recovery, Reduction or Suspension of Payment/s); or

(iv) exercise its termination rights described in the Framework Terms and Conditions.

9.3 The Purchasing Agency must satisfy or comply with any of the conditions within the timeframes set out in Appendix 7.

9.4 If the Purchasing Agency fails to satisfy or comply with any conditions it is responsible for:

(a) the Purchasing Agency will notify the Provider of that failure; and

(b) the applicable consequence set out in Appendix 7 will apply and, if none are specified for that condition, the consequence will be that the Purchasing Agency and the Provider will discuss with each other what an appropriate response should be.

9.5 If the Purchasing Agency or the Provider fails to satisfy any condition that is required to be satisfied before the Outcome Agreement comes into full effect, the consequence will be that the Purchasing Agency and the Provider will discuss with each other what an appropriate response should be.

10 Incentives

10.1 If the Provider satisfies the criteria set out in Appendix 8, the Purchasing Agency will provide the Provider with the incentive set out in Appendix 8.

11 Permitted Information Disclosure

11.1 Despite clause 10 of the Framework Terms and Conditions relating to confidentiality, the Purchasing Agency may disclose any information described in Appendix 9 to the persons named in that Appendix, provided that in no circumstances will the Purchasing Agency disclose any personal information about an identifiable individual without the consent of that individual first being obtained.

12 New Intellectual Property

12.1 Without limiting the intellectual property clauses in the Framework Terms and Conditions, any new Intellectual Property Rights (New IP) that will be created by the Provider in connection with the Service/s and described in Appendix 10, will be owned (including the proportion by the Party
13 Contact Details

13.1 Each Party’s initial postal address, physical address, email address, phone number and Relationship Manager details is set out below:

**Purchasing Agency:**

Relationship Manager: Sue Jones  
Designation: Community Investment Advisor  
Address: PO Box 947  
Whangarei 0140

Phone: 09 335-9978  
Mobile Phone: 029 500-9000

Designation: CEO  
Address: PO Box 334  
Manukau City  
Auckland 2241

Phone: 09 556-7789  
Email: DeeAnnabc@xtra.co.nz
14 Further Terms

14.1 The Purchasing Agency and the Provider also agree that the further terms set out in Appendix 11 form part of this Outcome Agreement. The Purchasing Agency and the Provider each acknowledge that:

(a) any further terms must be read and applied in a way which preserves the greatest degree of consistency and compliance with the Framework Terms and Conditions; and

(b) before including a further term that adds to, or departs from, the arrangements described in the Framework Terms and Conditions, the Purchasing Agency and the Provider have both discussed and agreed that the addition or departure is necessary to address a matter that is both novel and specific to the Provider or the Service/s, and which (for clearly identified reasons) is not otherwise adequately or appropriately provided for under the Framework Terms and Conditions.

MINISTRY OF SOCIAL DEVELOPMENT
TE MANATū WHAKAHIATO ORA

SOCIAL WORKERS IN SCHOOLS:
SERVICE SPECIFICATIONS
1. **About these Specifications**

**Who are these Specifications for?**

These Specifications are for the Provider that the Ministry of Social Development ("the Ministry") contracts with to provide the Social Worker in Schools (SWiS) Service.

Outcome Agreements with Providers for the SWiS Service require that they are delivered in accordance with these specifications. These service specifications are a living document and may be varied at the discretion of the Ministry. These Service Specifications form part of the Outcome Agreement.

**What is the purpose of these Specifications?**

The specifications provide:

- a set of commonly agreed practice principles and values to guide service delivery
- detailed information about service delivery and practice
- a resource tool to help you deliver the Service consistently
- a resource tool to assist you in meeting the desired Service outcomes
- a way for us to improve our responsiveness to feedback regarding changes to the service delivery component of the Outcome Agreement.

**How should these Specifications be used?**

These specifications should be seen as setting the minimum standard for service delivery to assist you to competently deliver the Service according to the Outcome Agreement requirements. Each Provider can develop a service that reflects their organisation’s philosophical base, incorporating local need and the culture within which it works.

**Will these Specifications be revised?**

This document is a living document and will be updated as required. The Ministry staff will keep you informed of any further editions, updates or changes to these specifications, as it forms part of the Outcome Agreement. Feedback on the specifications is welcome at any time and can be sent to the Ministry national office using the attached Feedback Form (see appendix two).

**Where can you go for further information?**

For further information on these specifications please contact your Ministry Regional Contract Advisor as identified in your Outcome Agreement.
2. Relationships

What are the principles that underpin the relationship between the Ministry, the Provider and the client?

For this relationship to be successful, it is essential that all parties collaborate to ensure the Service is effective and accessible. The following principles guide all dealings under the Outcome Agreement. The parties agree to:

- act honestly and in good faith
- communicate openly and in a timely manner
- work in a collaborative and constructive manner
- recognise each others’ responsibilities
- encourage quality and innovation to achieve positive outcomes
- support the principles of the Code of Funding Practice (http://www.communitymatters.govt.nz/Promoting-good-practice).

The Outcome Agreement does not constitute a partnership in the legal sense nor does it mean that the Provider is an employee or agent of the Ministry.

Cultural awareness

Each party recognises the needs of all people, including Maori, Pacific, ethnic communities and all other communities to have the SWIS Service provided in a way that is consistent with their social, economic, political, cultural and spiritual values.

Accessibility

Increased participation is supported by enhanced accessibility and recognises the diverse needs of all people, through:

- ease of communication
- flow of information
- physical accessibility.

3. Social Sector Accreditation Standards

Providers delivering the Social Workers in Schools service are required to meet Level Two, Ministry of Social Development specific accreditation standards. You are required to maintain your Approval Level according to the Ministry’s relevant Approval and Accreditation Standards.
3. About Social Workers in Schools

Background

The SWiS Service was established in 1999 to provide early assistance and intervention to children and families/whānau, to prevent social problems becoming more serious and creating a barrier to learning and social outcomes for children.

SWiS came out of a growing understanding of the relationship between the social, economic and life circumstances of families/whānau and the wellbeing of their children and young people.

SWiS social workers are based in selected low-decile primary, intermediate and secondary schools, working primarily with children in years one to eight within these schools.

In response to strong demand from schools for specialist support for children, the Government expanded the SWiS service in 2012/13, to cover all of the decile one to three primary and intermediate schools at that time. This increased the number decile one to three schools with SWiS from 285 to 673, reaching 132,000 children across New Zealand.

Overview of SWiS Service

SWiS is a school-based community social work service. By intervening early, social workers are able to work with children, their families/whanau and schools, to help protect vulnerable children and develop plans to improve their safety, wellbeing and educational outcomes.

The school setting has the advantage of:

- being a site where children are regularly seen
- having an existing infrastructure to support the delivery of the Service
- allowing issues to be identified early.

SWiS social workers are employed by non-government social service providers. They work in partnership with school staff as part of the school community; however they are not employed by the school.

A SWiS social worker will work in one school, or a group of schools, depending on the Provider’s Outcome Agreement with the Ministry. One ‘full time equivalent’ social worker position equates to one school or a cluster of schools, ideally grouped to make up a total roll of between 400 and 700 students.
Who is the client group for SWiS?

SWiS social workers work with children and their families/whānau, where there are concerns about a child’s wellbeing and/or safety, or where social factors impacting the family are affecting the child’s ability to learn and without intervention these may escalate.

This includes:

- children who are having difficulties attending and/or engaging in school
- children with social or behavioural problems
- children experiencing grief and loss, where this has impacted a child or family/whānau’s ability to manage
- families/whānau struggling with social, economic or parenting issues where home-based support is expected to increase the effectiveness of interventions
- children and families/whānau who have been referred by statutory agencies for community based support
- families/whānau for whom statutory intervention may be required if concerns and risk factors are not addressed.

SWiS social work practice

SWiS social workers work within a strengths-based framework to support children and families to achieve their goals for change. Their practice will be child-centred, family/whānau-led and culturally responsive. The core principles which underpin SWiS social work include strengths and evidence-based practice. The following represents these principles:

- social workers work in partnership with children and families/whānau in a relationship which respects the right of each family/whānau to participate in all aspects of service delivery (participation by children and family/whānau is voluntary)
- children’s right to have their wellbeing and safety protected must be the first and paramount consideration in the SWiS work
- children are supported to reach their full potential
- existing strengths within families/whānau are acknowledged and enhanced through the application of strengths-based social work practice. (Additional information about strengths-based practice is available in the SWiS toolkit)
- collaboration and open communication between all key partners is vital to ensure the services are effective and accessible.
How does the Service work?

SWiS has three key components:

Social work with children and families/whānau

This component of the Service involves social workers:

- developing supportive, trusting relationships with client children and families/whānau to facilitate change
- assessment and intervention planning with goals for change which build on the strengths and resilience of clients
- advocating for children and their families/whānau to ensure their needs are understood within the school setting
- linking children and families/whānau with community or specialist services where needed
- applying the Paramountcy Principle in the work with children and ensuring reports of concern (notifications) are made appropriately
- undertaking a case coordination role where appropriate when there are multiple agencies involved in the support of client families/whānau.

Group programmes

A group programme is defined as:

A strengths and needs based planned group activity that provides positive social development opportunities to enhance and support children’s learning and holistic wellbeing.

This component of the Service involves social workers:

- working with cluster partners to assess needs which can best be met within a group context. This will include trends in referrals to SWiS and issues which have come to the notice of schools and social workers
- providing reports to the Governance Group which include SWiS referral reasons and proposed group programme responses to meet needs identified
- planning, coordinating and delivering group programmes for children and families/whānau in response to areas of need identified in the course of their work
- evaluating the effectiveness of group programmes to ensure programmes are targeted towards the areas of need and expected outcomes are achieved.
Outcomes of group programmes

Group programmes are delivered to meet identified needs which would be best met by an interactive group setting. This may include programmes which:

- strengthen children's social relationships and communication
- build positive identity
- address specific behaviour which is causing concern
- strengthen resilience and ability to manage grief, loss and change
- strengthen families/whānau ability to support their children.

Group programmes may be delivered by SWiS social workers, trained facilitators of evidence-based programmes, SWiS social workers co-facilitating with Resource Teachers for Learning and Behaviour (RTLB), Public Health Nurses or other relevant professionals.

Community liaison and service coordination

This component of the Service involves the social worker:

- working with other professionals, in particular school support services, attendance services and public health nurses, RTLB and Ministry of Education (MoE) behaviour and special education practitioners to identify, co-work and refer appropriately when specific problems affect a child's wellbeing
- developing a collaborative relationship with Child, Youth and Family local offices to facilitate information sharing and working together
- providing appropriate coordination support to the 'strengthening families' process when children with complex needs require a multi-agency approach.

Location of SWiS social worker

For the programme to be successful SWiS social workers will have a base office in one of the schools within which they work and they will primarily work from this base. Social workers provide a SWiS service to each school at times agreed to in the Partnership Agreement. It is important that social workers have a suitable room in each school in which they can work confidentially with children and their families/whānau.

It is not anticipated that social workers will base their work out of the Provider’s office during term-time, however, they will have a work space in the Provider’s office to utilise when required.

By being located within and becoming known as part of the school community, SWiS social workers are able to break down many of the barriers and stigma families/whānau feel by asking for help.
Referral process

Referrals to the Service are formal requests for a social work service. Referrals can be made by children and families/whānau (self-referrals), schools, statutory agencies (e.g. Child Youth and Family) or health and community agencies working with families/whānau.

Referrals to the Service are made with the consent of families/whānau. The Service can be only be successful with the willing participation of children and their families/whānau so it is important that the family/whānau understand the reason they have been referred to the Service and give their consent to this referral. If a child self-refers and does not want their family/whānau to know, the social worker should work with the child to determine the best approach to gain parental consent to ongoing SWiS services.

While the social worker's primary focus is the child in the SWiS school, the social worker will take a whole of family/whānau approach which may include working with parents or caregivers and siblings regardless of the school they are attending.

When a child engaged with the Service moves to another school, this transition is to be supported through joint planning to ensure a smooth transition. This plan may include transition to SWiS services in the new school, or where no service is available the social worker should work with their school to ensure any issues which may impact on learning are included in the child's file to advise the new school. This should be provided with the consent of the child's family. Referral to a community social work support agency may also be appropriate. If necessary and practicable, the SWiS social worker may follow up with the child and family/whānau for up to six months.

Reports (Notifications) of Concern to Child Youth and Family

As professionals working closely with children and their families/whānau, SWiS social workers play a valuable role in helping keep children safe. Any concerns a social worker has for a child's immediate safety should be notified to Child, Youth and Family on the same day as concerns are known. The SWiS social worker should liaise with the school and the social worker's supervisor/manager to ensure adequate support.

If a social worker is unsure of the level of risk to a child, or has general concerns, they can discuss these with a Child, Youth and Family social worker at the local site, or call Child, Youth and Family on 0508 FAMILY (0508 326 459). This may help assess whether a statutory response is required.

All Child, Youth and Family approved Providers should have their own internal child protection protocols to ensure everyone knows what to do if they’re concerned (Business viability standard 2: Provider Guide to the Standards for Approval). SWiS social workers will advise their supervisors, managers and school when making a report of concern (notification) and work with the school to support the child and their family/whānau wherever possible. More information about what happens when you report a concern to Child, Youth and Family is included in the ‘Working Together’ interagency guide.
4. Service Delivery

Where do Providers fit in the big picture?

Providers are contracted by the Ministry to deliver the SWiS Service. This includes employing and supervising social workers and managing the SWiS Service in accordance with the Outcome Agreement and Service Specifications.

Providers work in collaboration with other community service providers to ensure SWiS services are delivered in a coordinated way. Key relationships include MoE regional teams, Child, Youth and Family local offices, regional and national Ministry contracting teams and others as appropriate.

In order to achieve the aims of this Service, it is important that the Provider works closely with the schools within their Cluster. This relationship is formalised in a Partnering Agreement which forms the local framework for the SWiS Service.

The Provider will:

- employ and support competent, qualified social workers
- support social workers to remain registered or to complete New Zealand Social Work Registration Board (SWRB) Registration where they are not currently registered
- provide opportunities for on-going training and professional development of social workers
- apply the partnering principles/framework as agreed in the Partnering Agreement
- promptly address any concerns or conflict between the school, the social worker and/or the Provider to ensure children and family/whānau access to SWiS is not compromised by relationship issues. The Partnering Agreement should include a process to guide issues resolution
- ensure appropriate community liaison and networking links are made to support the social workers, clients of the Service and schools
- develop a process in partnership with the schools, to determine who takes responsibility for making reports of concern to Child, Youth and Family where there is evidence or disclosure of abuse or neglect, or concern for a child’s immediate safety. Providers and schools will have their own protocols in place and it is essential that they agree on a process that follows protocols and determines the appropriate person to make the report of concern in each case. Notification may also be made to the Police
- partner with local Child, Youth and Family sites to share knowledge and expertise
- ensure SWiS Governance Group meetings occur quarterly, arrange these and actively participate.
Employing and supporting a SWiS social worker

To support the delivery of a professional social work service, the Provider is responsible for employing skilled social workers.

The Provider attends to all employment processes including:

- the recruitment and employment processes
- supervision and management
- training and professional development.

The Provider is to employ social workers who hold a social work qualification recognised by the New Zealand SWRB. Where it is not possible to recruit a suitably skilled and qualified social worker, the Provider may employ a social worker who is actively working towards a recognised social work qualification, as defined by the New Zealand SWRB. This will include a timeframe for completing the qualification. The Provider must provide details to the Ministry’s regional contract advisor if any social workers are employed who are not yet qualified.

The Provider ensures that:

- schools are consulted when appointing a new SWiS social worker
- representatives from the school Cluster, where possible, a local senior Child, Youth and Family staff member and Maori and/or Pacific representation where appropriate, will participate in the interview process
- there is a clear process for vetting applicants, including speaking to referees and a police check
- each social worker has a clear, detailed job description and a documented professional development plan
- remuneration for social workers will reflect their qualifications, experience and skills
- social workers are able to work flexible hours as agreed in their employment agreement, to enable them to attend family/whānau meetings outside normal work hours.

Social worker competencies

The most important factor in the success of the Service is the ability of the social worker to establish a professional, supportive and effective working relationship with each child and their family/whānau to ensure their goals for change are achieved.
It is important that social workers:

- are able to work well within the school system(s) and with school personnel
- are able to work children and family/whānau to develop positive family and peer relationships
- are committed to best practice
- are able to explain and promote social work in the school setting
- are able to manage their time well, given they will often be working across several schools
- demonstrate confidence and skill in group programme planning and facilitation.

While the Provider has discretion to develop the job description they believe best reflects the position requirements, core competencies must be considered to ensure the best fit for the role. The Provider will be informed by standard core competencies and by the specific social workers practice competencies detailed in the SWiS Toolkit ‘the competency framework for practice excellence’ when employing new social workers.

**Supervision and training**

The Provider is responsible for the quality of professional supervision, the support the social worker receives when working in the school setting and their access to appropriate training and development opportunities. The Provider is responsible for employing or contracting a supervisor, monitoring the implementation of the supervision plan and working with the social worker to develop a professional development plan.

Supervision is a compulsory requirement of the Service:

- all social workers must receive no less than one hour per fortnight of formal, one-to-one professional supervision
- for new workers, supervision and/or mentoring should be weekly for at least the first six months of their employment. This should include close support for their role in developing collaborative relationships and shared expectations with school personnel and systems
- professional supervision must be provided by a qualified, registered and experienced social worker with proven skills and experience in social work supervision. It is preferable that the supervisor also holds a supervision qualification in social services that has been awarded by a registered and accredited education provider, or is working towards this. If a supervisor does not have a supervision qualification, they are required to provide evidence of their skills and experience in providing social work supervision to Child Youth and Family regional contract advisors.

The SWiS supervision policy and specifications have been developed to guide best practice in supervision.

**Service support**

The Provider will provide:

- office space and administrative support for the SWiS social worker while working outside the school offices and during the school holiday periods
- a mobile telephone for the SWiS social worker and pay all costs associated with this mobile telephone
- internet access
- organisational insurance to cover social workers working off-site
- provision of a car for the SWiS social worker, or reimbursement of travel costs if the social worker’s employment contract specifies that their own car is to be used for work purposes
- a portable computer for the SWiS social worker’s use within schools.

Management of vacancies and back-up for SWiS social workers

The Provider will provide a professional back-up social work service if the SWiS social worker is on leave, undergoing training or there is a vacancy to ensure continuity of service delivery.

The Provider will ensure that the back-up strategy and contact person will be communicated to the school Cluster partners and noted in the Partnering Agreement.

The Provider will ensure that any SWiS social worker vacancy is suitably and promptly filled.

Working in partnership to create a more cohesive and responsive service

The SWiS Service is part of a range of intervention options available to support families. It is important, therefore, that there is a collaborative and supportive working relationship between all key partners, including the social worker, Provider, schools and local Child, Youth and Family office. This helps to ensure services and supports for children and their families/whānau are cohesive, effective and accessible.

To support this, the Ministry is introducing a Governance Group structure to provide oversight of a community’s needs and a forum for community networking with SWiS as the focus.

SWiS Governance

In past years, SWiS operational management has been undertaken by cluster partners in quarterly cluster meetings. For the purpose of this document, a Cluster is defined as the school or schools associated with one SWiS worker and the provider employer.

As a result of the current expansion of SWiS, the scope and size of the service is increasing considerably in some areas and a different structure for managing the local governance of SWiS is being introduced. The quarterly meetings will now be known as Governance Group meetings.

We are realigning SWiS governance to support collaboration with other agencies to meet the needs of vulnerable children, to provide a forum for identification of trends and gaps in available services and to minimise duplication of group programmes within communities. Local MoE and Child, Youth and Family operational management representatives will be invited to be members of local SWiS Governance Groups alongside school principals, Ministry of Social Development regional contract advisors and SWiS Providers for an area.
A Terms of Reference document has been developed to guide the establishment of these groups and to ensure all members know the purpose, roles, responsibilities and activities of the group. A Governance Group meeting minutes template has been developed to facilitate record-keeping. Meetings will remain quarterly.

Cluster partners have in the past included MoE and Ministry of Social Development regional contract advisors, alongside SWiS providers and schools. As the primary relationship for managing the day-to-day operation of the SWiS service is between the SWiS provider and the schools in a cluster, Partnering Agreements will now be between the SWiS provider and the schools of each worker. For example, a provider with three SWiS workers would have three separate Partnering Agreements. A new Partnering Agreement template has been developed to reflect this and will replace previous versions.

Local Governance Groups will have the option of establishing sub-groups to meet local needs including negotiating Partnering Agreements and aid or manage operational matters.

With the agreement of the Governance Group members, a meeting of the larger Governance Group may be held one quarter and sub-groups, made up of the cluster partners, may meet the next quarter.

Minutes from sub-group meetings should be made available to the full Governance Group and relevant information discussed with the wider group as necessary. Actions from meeting minutes should include action points which indicate responsibilities and timeframes.

Governance Groups aim to:

- understand the needs in the school community through a review of referrals, trends and issues from SWiS referrals, Child, Youth and Family referrals, school data and any other relevant information
- build relationships between key SWiS stakeholders to enhance on-going communication
- consider how SWiS partners and relevant agencies can work together to share knowledge and expertise
- support SWiS services to be delivered in partnership with other community-based and statutory services
- meet the holistic needs of children and their families/whānau
- consider options for group programmes to address identified needs, taking into account locally and nationally funded/available programmes
- identify group facilitation skills within the SWiS social work community to enable sharing of group programme resources across the schools represented by the Governance Group
- provide advice when needed to ensure group programme selection and implementation meets the outcomes sought and follow the SWiS process guidelines
- provide a feedback forum to review measurement of the effectiveness of group programmes.

School/Provider partnership

It is essential that Providers and the schools they are working with are clear about the role of social workers and have a common understanding of procedures to ensure social workers are able to carry out their role
effectively. The Partnering Agreement will describe the processes for service delivery and agreed responsibilities for promoting the SWiS Service within the school. This Agreement will include:

- service delivery arrangements in each school within the Cluster
- ensuring the social worker is able to attend Special Education Needs Coordinator (SENCO) or any other pastoral care meetings at each school
- plans to promote the SWiS Services to the school community
- collating reports to present to the Governance Group
- resolving complaints and issues which arise between school and service provider or social worker.

Any issues arising which are unable to be resolved at the cluster level should be addressed within the Governance Group.

Centres of Excellence

In some areas, local groups of SWiS Providers and social workers are working together to share knowledge and expertise. The Ministry of Social Development supports this initiative and sees it as an important development for SWiS. We will encourage Providers to establish local centres of excellence and where the Ministry of Social Development has the relevant expertise, they will support with resources and training needs identified within these forums.

Activities of the groups may include:

- considering regional professional development opportunities
- developing best practice systems through sharing knowledge, expertise, systems and processes
- consideration of training and support gaps from a regional perspective.

The roles of other partners

Ministry of Social Development

The Ministry will:

- manage the funding allocated to the SWiS Service
- select and contract with approved Providers under Section 403 of the Children, Young Persons and Their Families Act 1989, using Ministry of Social Development Standards of Approval
- attend and provide advice and programme overview to ensure the Service is delivered in accordance with the Outcome Agreement and Service Specifications
- monitor service delivery and financial management by the Provider. All Providers are required to report to the Ministry. The reporting requirements are detailed in the Outcome Agreement and the SWiS Provider Return Report
- report back to Government on the SWiS Service and its outcomes
- develop resources and support the Service
- liaise with the Ministry of Education nationally and regionally
- work with Providers to identify learning needs and where appropriate share training opportunities
- provide relevant training materials including the SWiS Toolkit
• coordinate regular meetings with the SWiS social workers to share knowledge and expertise, including invitations to attend relevant internal training
• partner with SWiS Providers to share knowledge and expertise.

Schools

Schools are key partners in the provision of the Service. A collaborative working relationship between the social worker, the Provider and schools within the Cluster is crucial to the effective operation of the Service.

The participating schools have a very important role in supporting the Service, therefore it is important that schools:

• ensure the principal (or another senior staff member) attends and contributes to all Governance Group meetings
• create a collaborative working environment in which social workers are able to carry out their work successfully
• provide access to children during the school day
• have a comprehensive understanding of the Service and promote SWiS to school staff and families/whānau
• utilise the agreed referral process (see the 'referrals' section of this document)
• gain consent from family/whānau for referrals to the Service, understanding that access to SWiS support is often compromised by families/whānau not being adequately prepared for a referral
• promptly address any concerns or conflict between the school, the social worker and/or the Provider to ensure children and family/whānau access to SWiS is not compromised by relationship issues
• recognise that SWiS social work is a professional role with clear specifications
• support the delivery of group programmes within the school with resources, such as stationery and any other tools the school has available
• provide a room within each school for social workers to meet confidentially with children and family/whānau without interruption and with access to kitchen, bathroom and administrative support
• base schools are responsible for providing a social worker’s primary work space including a desk, lockable filing cabinet and resources the social worker requires to carry out their work from within the school environment.

Ministry of Education

The Ministry of Education (MoE) is a key partner, particularly in the development of a new SWiS Service or when issues arise that they can assist with. It is important that local representatives attend and contribute to strategic governance meetings. Where issues arise that MoE has some expertise in or responsibility for, it will assist the SWiS partners to develop a resolution.

When a new SWiS Service is established MoE will provide support for school modifications and equipment required to enable the SWiS social worker to work from a base school.
In consultation the Provider, MoE and the school representatives will determine the most appropriate location for the social worker in each school. Where possible, existing suitable accommodation will be used and MoE will work with each school to determine what property modifications are required.

**Promotion of Service**

Promotion of SWiS is important. Therefore it will be the joint responsibility of the SWiS social worker, the Provider and school to promote the Service in each school community, so that all stakeholders are aware of the Service and how they may access it.
5. Results Measurement Framework

What is the Results Measurement Framework?

The Results Measurement Framework (RMF) is a measurement system that provides a clear line of sight all the way from the performance of the our investments to the Better Public Service targets the Ministry is responsible for. It will help to demonstrate how purchased services contribute to the achievement of the bigger outcomes we are seeking. The Ministry is applying the framework, which is aligned with the Results Based Accountability™ (RBA) approach to each of its priority results areas.

How does it work?

The RMF has two levels - the population level (which covers high level Government priorities) and the performance level (which looks at provider/programme client results). The two levels are connected to give the Ministry a better understanding of service demand and supply and to help strategic planning and purchasing decisions. By using actual, measurable client results the Ministry will be able to build an evidence base of effective services in communities.

Understanding the two levels

Population level

The RMF’s population level looks at high level Government priorities and provides a set of 'intermediate outcomes' under each of the three priority results:

- supporting vulnerable children, children in hardship and reducing maltreatment
- supporting vulnerable young people, including youth offenders, and reducing youth crime
- supporting adult victims/survivors, addressing perpetrators behaviour and reducing violent crime.

These are further categorised by the intensity level of service provision:

- prevention
- early intervention
- intensive support
- statutory intervention

Purchased services will contribute to the achievement of the Ministry’ three priority results and intermediate outcomes.

Performance level

The RMF’s performance level is focused on the performance of purchased services. It provides a structure for measuring different aspects of service delivery, including:

- quality - 'how well?'
- quantity - 'how much?'
- client results - 'is anyone better off?'
Generic Measures

The Ministry will assess quality and quantity using a generic set of measures. These will include, for example, the number of clients referred to the service and the percentage of clients assessed as 'successfully completed'.

Client Result Measures

Client result measures will be developed on a programme by programme basis, as the RMF is implemented. Depending on the service, client result measures will focus on either:

- change in skills and knowledge
- change in circumstances
- change in attitudes and beliefs
- change in behaviour.

The Ministry will 'cluster' measures for similar services; so that they share common result measures where it's possible and makes sense to do so. By identifying the most important changes rather than measuring every result, we aim to minimise compliance on providers.

How does it all fit together?

The following table provides an example of how the Results Measure Framework for Social Workers in Schools fits together.
Results Measurement Framework: Vulnerable Children Priority Result

Population Level

Priority Result: Vulnerable children, children in hardship and reducing child maltreatment

Population Indicators

- Number of children in poverty
- Number of children in orphanages
- Number of children in foster care
- Number of children in institutional care
- Number of children in nutrition programs
- Number of children in education programs
- Number of children in healthcare programs
- Number of children in social protection programs
- Number of children in child protection programs

Intervention Levels

- Prevention
- Early intervention
- High risk/Intensive Support
- Statutory Intervention/Children’s responses

Theory of Change

- Services in Schools: SWIS, RAASIS, TWISS

- Identify needs
- Promote positive parenting
- Improve parent knowledge
- Increase parent engagement
- Build community support
- Forest to feel supported
- Target areas of need

Services Impact

- Improved health outcomes
- Increased use of positive parenting strategies
- Increased parent engagement with social support
- Increased community support and awareness
- Increased social support and awareness

Performance Level

- Information requirements
- Quality and Quality Measures
- Results Management Framework
- Client Result Measures

Provide narrative reporting to support data reporting
- What is the trend data? (data, measurement)
- What is the trend data? (data, measurement)
- What are the challenges? (data, measurement)
- What are the next steps? (data, measurement)
- What are the key indicators? (data, measurement)
- What are the key indicators? (data, measurement)

High risk/Intensive Support

- High risk and intensive support
- High risk and intensive support
- High risk and intensive support

Statutory Intervention/Children’s responses

- Increased social support
- Increased social support
- Increased social support
- Increased social support

Population Indicators

- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect
- Child F/Death, child abuse, child neglect

Intervention Levels

- Prevention
- Early intervention
- High risk/Intensive Support
- Statutory Intervention/Children’s responses

Theory of Change

- Services in Schools: SWIS, RAASIS, TWISS

- What are the next steps? (data, measurement)
- What are the key indicators? (data, measurement)
- What are the key indicators? (data, measurement)
6. Reporting

What reports are required by the Ministry?

Reporting is required to meet the contractual obligations set out in the Outcome Agreement. Reporting is necessary to ensure accountability to Government for the funding provided under that Outcome Agreement. The Ministry has agreed on the quantity and nature of the Services the funding supports, and we are required to report to Government that this has been achieved.

The following reports must be completed and sent to your Ministry Contract Manager on the dates set out in the Outcome Agreement:

- client level data reporting – a web based tool supplied to the provider
- RMF reporting - provided electronically by your Community Investment Advisor

Examples of these reporting templates are attached as Appendix Three of these Service Specifications.

Client data collection and sharing

The Ministry intends to introduce the collection of individual client level data through provider’s contracts. We are not interested in case notes, or personal files – we just need the information that allows us to track results for clients in a meaningful way.

By collecting information on clients, and then assessing the effectiveness of different providers and programmes in achieving results for clients, we start to develop an evidence base about what works for different types of client cohorts. This will mean that the Ministry can target its spending more effectively to achieve the best results for vulnerable New Zealanders.

For both the Ministry and providers, data collection and matching will:

- provide an objective measure of how well providers are performing for different client cohorts that will enable conversations at all levels of the organisation about continuous improvement.
- enable effective practice to spread, and the fostering of innovative new solutions through the shared measurement of statistical level results for different client cohorts.
- mean we can demonstrate the difference we have made to the lives of vulnerable New Zealanders for the funding spent on community based social services.

What client level data needs to be collected for reporting purposes?

Those clients that are engaged and or enrolled in SWiS after 1 July 2016 will be required to consent to their information being shared with the Ministry. This means that you are required to collect and report on the following client level data for all new clients from 1 July 2016.
A. **Demographic data** – this data is visible to the Ministry and all providers using the Ministry’s Client Level Data Reporting Tool.
   - name (first, middle and last)
   - location
   - primary ethnicity
   - iwi affiliation
   - gender
   - date of birth
   - name of dependants (if appropriate)
   - DoB of dependants (if appropriate)

B. **Service specific data** – this data is visible only to the Ministry and the provider delivering the service
   - service accessed
   - results achieved

This will require both the Ministry and the Provider to ensure that all personal information relating to the Service is kept secure and will comply with the Privacy Act 1993.

**How will client consent be managed?**
You must ensure that any client and their family/whānau, engaged or to be enrolled in the Service from whom you collect personal information, understands that his/her information will be provided to the Ministry and other departments. For clients under the age of XX, the permission of the primary caregiver must be sought.

The client is required to consent to share the information with the Ministry by signing the Client Consent Form attached as Appendix Four in these Service Specifications. If it is impracticable that the client sign at enrolment, you will need to ensure that the client signs the Client Consent Form as soon as reasonably practicable.

Ministry staff dealing with the Outcome Agreement will **not see** identifying information about clients.

If the client is willing and consents, their service history and results can be shared with another provider.

**What happens if a client refuses to give consent?**
Consent is a compulsory requirement if the service is to be funded by MSD.

**Why is this level of information collected?**
The primary purpose of client level data collection is to assess client results achieved by the Service intervention and the overall effectiveness of the Service. Non identifiable client information may also be shared and compared with other information held by the Ministry and/or other external agencies and/or services for the purpose of understanding effectiveness of services across Government and to inform future services planning and development.
6. Definitions

In these specifications, unless the context otherwise requires words or phrases beginning with capital letters are defined as follows:

"Outcome Agreement" means the contract entered into by the Provider and the Ministry for these Services.

"Provider" means the organisation the Ministry has contracted with to provide these Services.

"Services" means the Services to be provided under the Outcome Agreement and "Service" has a corresponding meaning.

"Partnering Agreement" refers to the agreement negotiated between the Provider and each school within the Cluster to guide the local delivery of the Service. This is not a legally binding document and differs in this way from the ‘Outcome Agreement’ referred to above.

"Paramountcy Principle" refers to section 6 of the Children, Young Persons and Their Families Act 1989, which defines paramountcy as “the welfare and interests of the child or young person shall be the first and paramount consideration”.

"Cluster" refers to the group of schools which a particular social worker is working within.

EXAMPLE SOCIAL WORKERS IN SCHOOLS SERVICE SPECIFICATIONS PAGE 23 OF 28
Appendix Two

The SWiS social work process:

*(NB: This is a summary of the process and it is outlined in more detail in the SWiS Toolkit)*

| Referral to SWiS | • Referral to SWiS Service from school staff, community, statutory services, or self-referral  
|                 | • Advise referrer of expected timeframe for making contact with family/whānau  
|                 | • Notify Child Youth and Family if immediate safety risks are identified. |
| First contact   | • SWiS contacts/meets with family/whānau to fully explain Service  
|                 | • Initial consent to Service/information-sharing should be gained at this point  
|                 | • If Service is denied at this point, the reason for this needs to be documented and the referrer advised  
|                 | • Re-assess risk to child and take any action required. |
| Gain written consent | • Face to face meeting to gain formal written consent to Service/information sharing with school, other services etc.  
|                  | • Record all information  
|                  | • If Service is denied at this point, the reason for this needs to be documented and the referrer advised  
|                  | • Re-assess risk to child and take any action required. |
| Strengths and needs assessment | • Begin assessment of needs/issues/strengths/resources/risks  
|                               | • Document information including assessed level of risk at time of referral and again at assessment  
|                               | • Advise referrer that client has been engaged, or if consent to Service has been denied  
|                               | • If consent is denied, document all contact clearly and advise referrer  
|                               | • If serious concerns risk are present liaise with referrer and/or school about a report of concern being made. |
| Developing and implementing the plan | • Support the child and their families to develop goals and a plan for how these goals will be achieved  
|                               | • Agree the frequency of contact and roles and responsibilities of those involved in achieving the goals. The plan should include tasks for the child, the family/whānau, the social worker and other key supports  
|                               | • Help the child and their family/whānau picture a future in which the social worker will no longer be needed and the child/family/whānau is better able to manage the situation which prompted the referral  
|                               | • Involve and make referrals to wider supports as appropriate  
|                               | • Define roles, responsibilities and communication processes when other organisations/professionals are involved in supporting the child and their family/whānau. Provide case coordination where necessary. |
| Reviewing and assessing the plan progress | • The plan/goals/strategies need to be regularly reviewed, progress assessed and adjustments made as required  
|                               | • Track whether the initial goals are still relevant  
|                               | • Identify any barriers to progress and opportunities to renegotiate tasks, goals, and partners to the process  
|                               | • Wherever possible, short-term intervention with clear, achievable goals should be negotiated  
|                               | • Strengths-based practice focuses on clients’ achievement of goals and feeling better able to manage problems in their lives. |
| Case closure | • Review of progress should identify when goals for change have been met  
|              | • Closure of a SWiS intervention is to be managed in consultation with clients  
|              | • The referrer and other partners in the change process will be advised and feedback sought from school and any other relevant services to assess positive outcomes  
|              | • The SWiS Service will seek information to evaluate the effectiveness of the Service provided to inform Cluster partners, SWiS Service development within the Provider organisation and to fulfil MSD contractual reporting requirements. |

COMMUNITY INVESTMENT
TE NAUMI AWAPORI

INFORMATION SHARING CONSENT
(to be completed by client)

I ________________________________ (the client or Primary Caregiver) give my consent for the personal details listed below to be provided by ________________________________ (the Provider) to Community Investment, Ministry of Social Development (the Ministry).

The information provided to the Ministry about me will be:

- name (first, middle and last)
- location
- primary ethnicity
- iwi affiliation
- gender
- date of birth
- number of dependants (if applicable)
- age of dependants (if applicable)
- the outcomes I achieved as a result of the service I received.

I understand that:

- The primary purpose of collecting client information is to assess the effectiveness of the Service Provider and the overall service.
- My personal details will not be identifiable in any reports provided to the Ministry.
- Information will be kept securely and will not include case notes.
- If I access another Service Provider funded by the Ministry they will be able to view my details above, but will not include information about the services I received, the outcomes I achieved or any other written case notes etc.
- My anonymized information may also be shared and compared with other information held by the Ministry or other external agencies/providers, for the purpose of understanding effectiveness of services across Government and inform future services, planning, and development.
- Receiving MSD funded social services from this Provider is dependent upon approval of this form.

For further inquiries please contact Community Investment, Ministry of Social Development (the Ministry) at XXXXX, XXXXXX
