

Emergency Housing SNGs | Nov 2022

Emergency housing is short-term accommodation (usually in motels) for individuals who have an urgent need because they are unable to remain in their usual place of residence. It is funded through Special Needs Grants that clients apply for when they cannot access accommodation and we have explored all the other options available to them. Grants can cover between one and 21 nights of accommodation at a time.

Emergency housing – over the month and historic numbers

1 Grants/clients/amount granted over each month

2 Number of households in emergency housing – as at the end of each month

Commentary

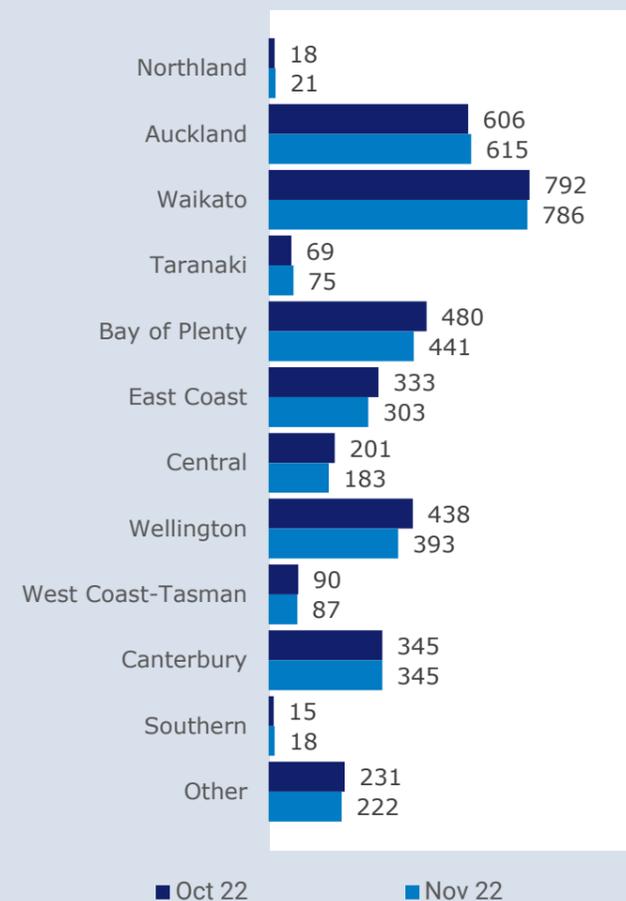

The number of households in emergency housing continued to trend down at the end of November 2022, reaching an all-time low since December 2021, with 3,486 households.

There were 1,425 (29 percent) fewer households in emergency housing between December 2021 and November 2022. Most regions saw a decrease last month compared to October, except Northland, Auckland, Taranaki and Southern, with small increases.

The number of Emergency Housing Special Needs Grants (EH SNGs) and amount granted stabilised last month, with a slight increase of 72 (0.8 percent) and \$0.3 million (1.3 percent) granted respectively.

Public Housing Register | 30 Nov 2022

The Public Housing Register is a non-time bound list of all applicants eligible to be placed in public housing. Applicants complete a public housing assessment which determines eligibility and priority for public housing against an agreed set of criteria, which is then used to assist the public housing provider in matching to the most appropriate property.

As at 30 Nov 2022

Public Housing Register flow

14 Register flow data – as at end of the month

Commentary

There were 28,500 applications in the Public Housing Register as at the end of November 2022, a decrease of 255 (0.9 percent) compared to the end of October. Most regions had a decrease in applications in November, except East Coast and Southern. System improvements continued to be undertaken to increase the capacity for register management. These improvements have resulted in the completion of one years' worth of housing register conversations in 12 weeks and an increase of public housing applications with closure pending status. This trend is likely to continue over the next few months as improvements are completed.

¹MSD reports total response ethnicity. This means if a person identifies with more than one ethnic group, they are counted in each applicable group and the sum of responses for all ethnic groups may exceed 100%. For more information www.msd.govt.nz/about-msd-and-our-work/tools/how-we-report-ethnicity.html. Note, MELAA refers to Middle Eastern, Latin American, and African.
