Housing Supply Targets 2020

MSD plans to purchase additional public housing by June 2020. It is an ambitious plan that recognises specific areas in New Zealand where there is significant unmet demand for public housing.

Transitional Housing

Transitional housing provides warm, dry and safe short-term accommodation for people in need, along with tailored social support while they're there. Transitional housing is managed by contracted providers, who are skilled in supporting tenants with a range of social and tenancy-related services, and are also responsible for maintaining the properties.

The transitional housing programme is led by MSD and Housing New Zealand and involves local councils and emergency housing providers.

People living in transitional housing pay rent of up to 25% of their income, which is in line with income-related rents for public housing. The balance is subsidised to providers by MSD.

When New Zealanders are in need of public housing, their needs are recorded on the Social Housing Register. The Social Housing Register is comprised of a Housing Register and a Transfer Register. The Housing Register is prioritised by need and consists of public housing applicants who have been assessed as being eligible. The Transfer Register is made up of people already in public housing, but who have requested and are eligible for a transfer to another property.

With more transitional housing places coming on board in the quarter ending 31 December 2017, MSD has seen a decrease in the number of EH SNG being paid.

In the quarter ending 31 December 2017, there have been **3,148** grants made, supporting **975** households compared with **4,238** grants supporting **1,263** households in the quarter ending 30 September 2017.
